

ANTIQUE STONE

THE ORIGINAL

Amabel - Sterling Blend

Shouldice developed the “antique” stone profile, we did it first and we do it best. A dynamic Stone Profile that can be used at grade or even below grade without concern for the elements guarantees a lifetime of performance.

Antique Stone comes with a percentage of pre-split stones creating the natural random look that is both easy and cost effective to install. The wide choice of colour in combination with Twin and Tritone blends will transform a house into a home of natural distinction.
